

Lesson structure - Understanding Media Literacy

partner country: Spain

school: EP LA SALLE

NAME: WHO CARES?

Topic: Annotation / Short summary	Privacy, right to image, commit a crime using other people's images. Avoid trivializing.
Aims:	The aim is to point out how easy is that innocent images uploaded by us onto the Net may end in evil hands. It does matter what we upload and it is very important to really spend some time finding out and establishing all the possible filters which the social network puts at our disposal.
Age group:	12-18 years
Level	
Time	45 minutes
Materials	Disguises, computer, photography editing and retouching software, A3 paper, colors.
Procedure	<p>a) 1st step: doing a photo call to capture students' images or / and (from the country of origin) asking a picture of (at least) one of the students participating in the meeting to manipulate it afterwards.</p> <p>The students ask their European peers that some of them (one per country) come to a certain place to make a photo-call. They ask them to disguise wearing a bullfighter's hat, a mexican hat, sevillana dress.</p> <p>Those pictures are taken o retouched with an application to cut out their faces.</p> <p>b) 2nd step: Doing a Kahoot! We collect data.</p> <p>c) 3rd step: teamwork in groups of 4 (numbered heads from 1 to 8)</p> <p>Analyze data / information of the last 5 questions: They have to extract a conclusion in the form of a paragraph (4-5 lines).</p> <p>After that they have to create a explicative and advice poster with a slogan (A3 paper for each group, colours)</p> <p>Finally, each will present their poster together with their 4-5 lines conclusion.</p> <p>d) 4º step: we show the video "Cuidado con las fotos que subes a Internet"</p>

	<p>https://www.youtube.com/watch?v=we7wO2PJJfQ</p> <p>After watching this video, are you thinking about changing your attitude when uploading pictures? How? Can this happen to you?</p> <p>e) 5° step: We show the attending people the students' retouched pictures. And now, are you thinking about changing your attitude when uploading pictures? How?</p>
Closure / reflection	<p>The aim is the students to change their perception about sharing pictures in Internet.</p> <p>We want them to be aware that once uploaded, we lose control over them.</p> <p>They must know that their information in wrong hands can be used with criminal intentions.</p>
Follow up (homework)	<p>We have to be sure that the privacy policy that we have in our social networks is the one we want to have.</p>
Tools needed	<p>photo call, kahoot, in a computer and in every mobile phone, video and paper for reflection.</p>
